

food service want...
low smoking at a cost of \$1,000 or more...
Green, a Big Island doctor who is chairman of the...
Health Committee, instead is suggesting a tax credit to...
offset bar owners' financial losses.

2006 smoking...
portation facilities and venues...
to the public such as restrooms, lobbies, reception...
hotels, offices and banks.
Their plight is understandable; while only 20 percent of...
Hawaii residents are smokers, Bill Comerford of the...
Hawaii Bar Owners Association claims that two-thirds of...
bar customers smoke. The same is true in France; about...
12 million of the French — about 20 percent of the popu-

needs revision...
step back from protecting people against...
smoke.
In the 2006 Legislature, Hawaii became the nation's 13th...
state to prohibit smoking in bars. Others include Califor-
nia and New York. Even tobacco-addicted France this...
month extended a year-old ban on smoking in public...
places to restaurants, bars, casinos and other commer-
cial enterprises but allows it in outdoor cafes and indoor...
hermetically sealed areas, furnished with air-extraction...
systems and subject to extremely rigorous health...
phorms."

The
STAR should be
YOUR daily read!

Honolulu Weekly, Pacific Business News, Hawaii Reporter.com, and now the Star Bulletin

ALL AGREE that a reasonable compromise MUST be realized this session.

Honolulu Advertiser remains the only major print with their heads in the sand on this one.

Kudos to the Star for having the Stones to step up to the plate!!

They will get a ton of flack for this decision, so support and read the STAR just as we do daily.

The Star has been and remains the official daily read for the Hawaii Smokers Alliance,

AND SHOULD BE FOR EVERY LAWMAKER!

In the end, TRUTH is always the last one standing...

We don't lie.

BAN THE BAN!
